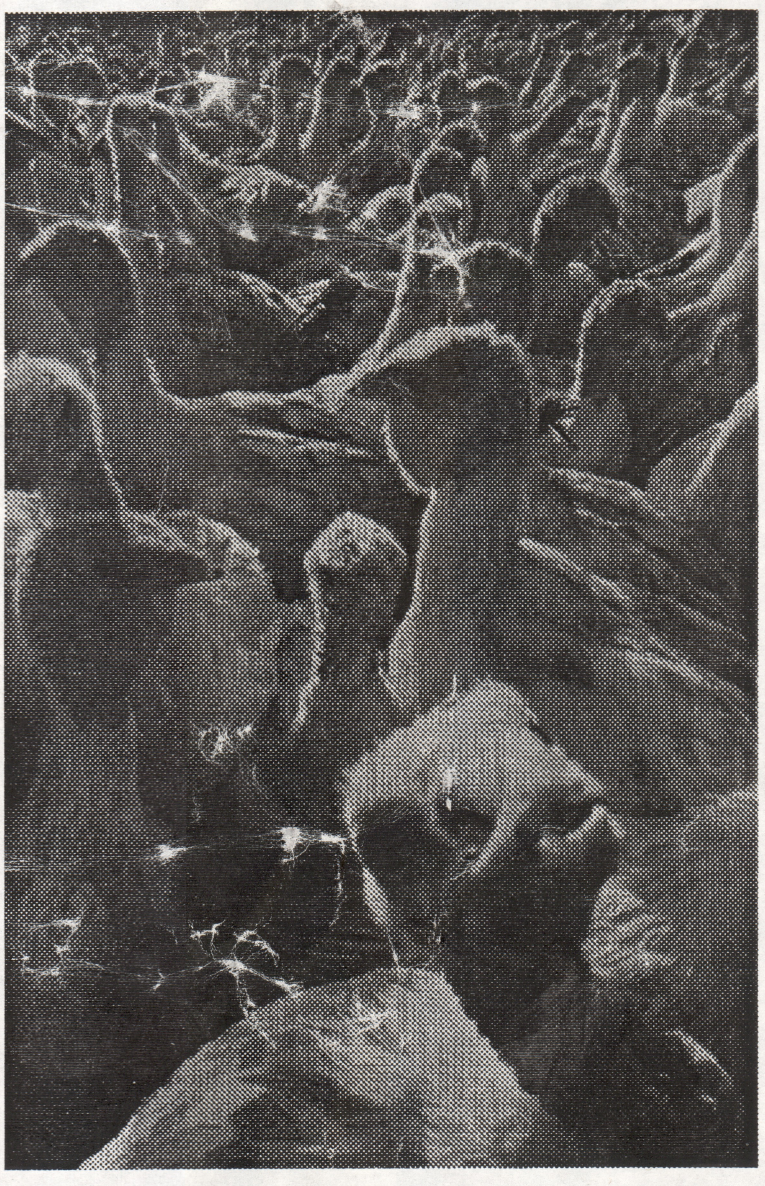
GOBBLE, GOBBLE, GOBBLE



Okay, it's November, month of Thanksgiving. So it only seems appropriate to thank a few people who have made LETHAL RECORDS what it has become so far.

It has now been about a year since John Geldbach and I got together and decided to start a record label dedicated to the creation of music, instead of the bottom line. Our goal then, as it is now, was to bring the best music possible without compromising our integrity. So far we have been able to accomplish this goal and continue to move forward. In fact, it is this ethical stance which has allowed us to grow so fast.

Of course, there are many other people who have helped along the way. Most notably are, of course, the bands themselves. Many of them took as big a chance on us as we did on them so, I hope they know how much their inclusion in our dream has helped make it a reality (RULE 62, DRAIN BRAMAGED, HFL, ONE HIT WONDER, ADZ, CHINA WHITE, STEP AHEAD, BONECRUSHER, GLORY HOLES, BEDWETTER, GLUE, MANHOLE, NAKED APE, SLOUCH & RAGABASH).

Others have helped out behind the scenes without any fanfare. Our sincere thanks thus go out to Brian and Scott at the warehouse, Grace, Ann, Juan and Steve at 'The Cellar' studio, Jimmy & E at 'For the Record', Bill Lightner at KDISC, Steve and M&G Printing, John Golden, Rick Bain, Chris Martin, Kelly and Ann Marie at DMI, Bill Smith & Co., Flipside, MR & R, Terri and Implosion, Shael and Mean Street, Angry Thoreauan, and all the stores and distributors who carry our stuff.

Thanks especially go out to any and all who have ever purchased a LETHAL record or CD. It shows that we are on the right track. As such, we shall continue on in our endless quest to provide the best music around without any regard to the evil corporate muzac machines.

T.V. PARTY TONIGHT

Rule 62 has landed a spot on Poorman's new T.V. show "Love Channel" on KDOC. If you haven't seen this show yet, check it out, it's funny, rude, iconoclastic, entertaining, but most importantly, informative (thanks to Dr. Danielle, M.D., who somehow manages to retain a high degree of professionalism and credibility despite the shananigans surrounding her).

Scheduled to appear as follows:

DATE: December 6, 1994
TIME: 12:00 midnite
WHERE: KDOC

Also, Rule 62 video for song, 'Still I pay', off of the best selling Love and Decline CD is ready to be released for public consumption. This will be sent out to all of the underground video shows, as well as the corporate hell stations. Look for it soon. Better yet, call MTV and request it.

Back up vocals: FACE-TO-FACE

Fifteen years ago, an upswell of teenage rebellion swept through the normally conservative environment of suburban Orange County, California. Manifesting itself in the form of a spiny little creature called punk rock, bands began to pop their heads out of garages from Fullerton to Huntington Beach. Names like TSOL, Social Distortion, CH3, and Agent Orange created a new sound that defined and influenced a whole generation of kids and bands. But the most influential of all was a group of punks out of Fullerton, **THE ADOLESCENTS.**

THE ADOLESCENTS, or the **ADZ** as they were known to many of their followers, simply defined what the sound of Orange County was at that time. Additionally, their combination of intensity and angst, matched only by their ability to maintain a solid melody, pointed the way for the next generation of punks. Since that magical time, every band of significance that has carried the punk rock banner has acknowledged the influence of the **ADZ.**

Now, fifteen years later, **ADZ** returns with a brand new album poised to regain the throne they relinquished years ago. Having dropped their formal name in favor of the shorter, more familiar moniker - **ADZ**, they have not dropped any of the intensity or power of their legendary debut album or its spectacular progeny.

WHERE WERE YOU, the debut release of **ADZ** reunites original members TONY on vocals, RIKK AGNEW on guitar, and CASEY ROYER on drums, and adds Mike Rouse on bass and Roger Ramjet on guitar. The album simply redefines what Orange County punk rock is all about. Eleven (11) songs that blaze through familiar terrain with a sound much like their early stuff, while constantly moving forward, presenting a new path for bands to follow the **ADZ** into the next century.

BONECRUSHER - "World of Pain"

The name itself conjures up images of shattered and splintered skeletal parts unable to withstand the sheer force of some unknown assailant. The music on this debut fill length release goes one step further, attacking the listener with a sonic brutality that leaves very little room for mercy. Throw in the battery of tattooed thugs from Huntington Beach, California that comprise this incarnation and you have the foundation of an understanding of what **BONECRUSHER** is all about.

But that shallow description of **BONECRUSHER** barely scratches the surface of this talented foursome. Casted along the skeletal remains of early punk rock luminaries such as the MISFITS and oi icons like ANTIPASTI, **BONECRUSHER** is able to shed the chains of the past and thrust forward into a new and unheard of world of pain.

Yet beyond the pain lies the true measure of this band. The remarkable quality of this release is the song writing ability of this band. Each song is crafted in a manner which allow the melody of each song to withstand the intense weight and power of the music. See if you can.

BONECRUSHER
'WORLD OF PAIN'
LETHAL 3-1005

BONECRUSHER held their record release party at Music City in Fountain Valley on Monday, Oct. 31 - Halloween. Flannel Nation & 96 Decibel started the festivities and big, bad, H.F.L. finished things off. The evening started a little slow, but ended up to be quite a 'bash'. Ask someone who was there.

COMING SOON

From the opening cut to the final chord, this debut full-length release on LETHAL RECORDS keeps slapping you in the face with its impressive fat slabs of reality. Utilizing all of the pure anger and fury of their highly acclaimed early releases, the album "FIX" is tempered only by an incredible maturity in their song writing and explicitly penetrating lyrical content.

This long awaited release from the reigning kings of Huntington Beach Hardcore, throws out sixteen (16) brand spanking new tunes of angst and aggression. Never the kind of band to look back and rest on their laurels, or simply repeat a formula of song writing, H.F.L. surges forth with a power beyond that of any of its contemporaries.

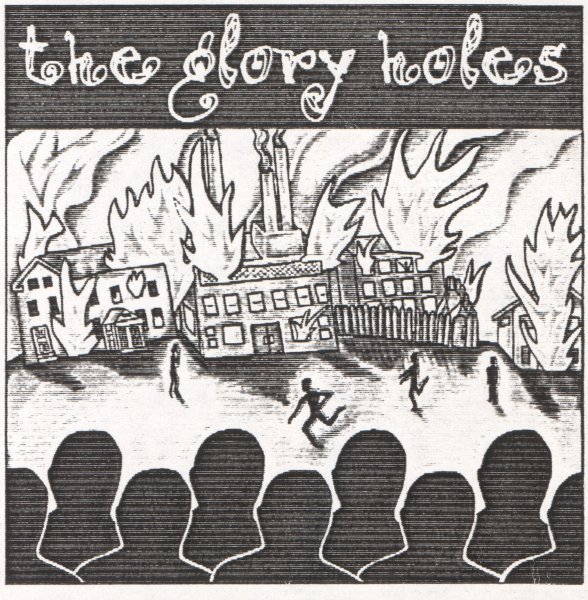
As hardcore as it gets.
HARD. FAST. LOUD.

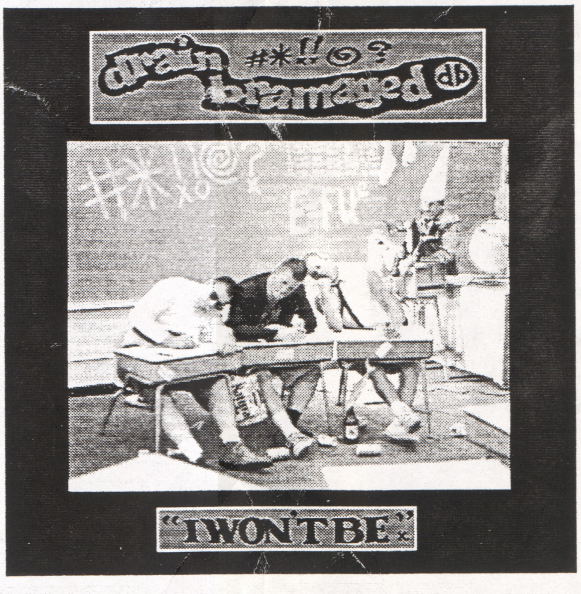
The Glory Holes break out into public consciousness with a blend of pure agro power pop that refuses to be ignored. This debut full-length release on LETHAL RECORDS is full of well crafted song structures which continually show off the pop sensibilities and talent of these Orange County veterans.

Featuring eleven new songs about life and a generations' search for identity, this release traverses the entire spectrum of emotion. With introspective and examining lyrics that explore everything from relationships to social blight, this self-titled release constantly questions the basis for authority as only true punks can.

Certain to be a favorite on college radio.

LATE NOVEMBER RELEASE





Just when you thought it was safe to buy a CD again, now comes the debut full-length release from those drunk-punk bad boys, Drain Bramaged. We just shouldn't have left these guys alone in the studio with an unlimited supply of beer. We should have known better. But, they emerged, drunk as ever, and wielding what turns out to be one great record. Obnoxious? Yes. Offensive? At times. Radio friendly? Not on your life.

13 rip-roaring new songs, as well as plenty of drunken gibberish, make this CD release a must for anyone whose ever had a little too much beer and ended up puking on their girlfriend's shoes. So, go ahead and pop open a twelve pack of whatever beer is on sale and give this a listen. We hope you can take it.

IN THE STUDIO

ONE HIT WONDER - Just finished a new 4-song single with Juan at 'The Celler'. Very up-tempo stuff for these veterans of the scene. It's only a matter of time before the world finds out about these guys as their combination of great songwriting and skilled musicianship can't be kept a secret forever.

CHINA WHITE - As of this writing, they have completed all of the basic music tracks for their upcoming album. Finally doing the follow-up to their highly acclaimed 1981 EP. It may be almost 15 years later, but they still have the power and fury of yesteryear.

CHUCK - These fools from Hesperia/Lucerne Valley are negotiating with Jim Goodwin to begin recording their debut album and follow-up to their critically acclaimed cassette, 'Big Knife'. Scheduled to begin soon and released in late January. If you've never been to a show in Hesperia, go. It's a great scene that the kids really care about and take pride in.

AGITATOR - Never heard of them. Well, you will. Featuring Mike from ADZ, Paul from Fuel, Rich from the White Kaps and featuring on guitar, the immortal and legendary Billy Zoom. Doing some pre-production to get ready for the big one. Will be very big.
